PROFILE

Motivated Computer Engineering student at KNUST with hands-on experience in full-stack web development, embedded systems, and real-world software deployment. Passionate about applying engineering solutions to practical challenges, with a track record of delivering production-grade projects integrating payment systems, databases, and automation. Strong communicator and collaborative team player with demonstrated leadership in both academic and community settings.

EDUCATION

BSc. Computer Engineering

Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana | Expected September 2027

W.A.S.S.C.E (Science)

Opoku Ware School, Santasi, Kumasi, Ghana | March 2021 – September 2023

PROJECTS

Fredmak Internet Services — Full-Stack ISP Management Platform

Node.js · Express · PostgreSQL (Supabase) · Paystack · JavaScript | 2025

- Developed a complete internet service management website for PKAY INTERNET SERVICES, serving a student hostel in Ghana.
- Integrated Paystack for real-time payment verification and automated end-to-end transaction flow from plan selection through payment to credential distribution.
- Built email automation for instant credential delivery with zero manual intervention.
- Designed a mobile-responsive UI and RESTful backend using Node.js, Express, and Supabase (PostgreSQL).

FLINT Wi-Fi Voucher Website — Local ISP Automation

Node.js · Supabase · Paystack · Nodemailer · HTML/CSS/JS | 2025

- Designed and developed a platform to automate sale and distribution of Wi-Fi vouchers for a local ISP.
- Integrated Paystack for secure online payments and Supabase for voucher storage and management.
- Implemented automated email delivery of vouchers via Nodemailer with a fully responsive frontend.

Serious Gamers Tournament Website

JavaScript · Supabase | 2025

- Built a tournament registration and bracket management site with team registration, slot limits, and Supabase data persistence.
- Developed admin control panel for managing registrations and bracket display.

Personal Portfolio Website

HTML · CSS · JavaScript · Node.js | 2025

- Designed and built a responsive personal portfolio showcasing projects, skills, and contact information.
- Deployed on Render with a custom domain, featuring glassmorphism UI, scroll animations, and a web3forms contact form.

Arduino-Based Traffic Light Control System

C/C++ · Arduino Uno · Proteus | 2024

- Designed and programmed a functional multi-intersection traffic light system using Arduino Uno.
- Simulated and validated timing logic in Proteus; integrated LEDs, resistors, and timers to replicate real-world traffic control.

SKILLS

Programming Languages	C, C++, C#, SQL, JavaScript, HTML, CSS
Frameworks & Runtime	Node.js, Express, ASP.NET Core (MVC)
Databases & Cloud	PostgreSQL, Supabase, SQL Server, Microsoft 365 (Teams, SharePoint, OneDrive)
Tools & Platforms	Git / GitHub, Arduino IDE, Proteus, Visual Studio, LaTeX
Core Strengths	Full-stack development, embedded systems, payment integration, REST APIs, email automation

LEADERSHIP

Deputy Head, Coding Club

Association of Computer Engineering Students (ACES), KNUST | 2025 – Present

- Co-lead the ACES Coding Club, organising coding sessions, workshops, and peer-learning initiatives for Computer Engineering students.

Assistant General Secretary

Opoku Ware School — BZ Year Group | February 2025 – Present

- Manage communications, coordinate meetings, and support administrative functions for the year group association.

CERTIFICATIONS & ACHIEVEMENTS

UITS Software Development Bootcamp

KNUST, October 2024

- Database Administration & Modelling, C#, Web Application Development (ASP.NET Core MVC), Capstone Project.

Technology Week Celebration — TWEEK '24

Dept. of Computer Engineering, KNUST, 2024

Participated in technology-focused workshops promoting innovation and interdisciplinary collaboration.

SQL (Basic) Certification

HackerRank, 2025

Demonstrated proficiency in querying, filtering, and manipulating relational databases.

Microsoft 365 Ecosystem Certification

Coursera, 2025

Cloud productivity tools, Teams, OneDrive, SharePoint, and administration fundamentals.

Complete Ethical Hacking Course — Zero to Hero

Udemy, 2025

Nmap, Wireshark, Hydra, Metasploit; Wi-Fi penetration testing; exploitation on Android and Windows.

Best Student — Year 1 & Year 2

Atimatim D/A Experimental Junior High School

Top-performing student for two consecutive academic years based on overall academic excellence.

REFEREES

Dr. Thomas Kwaku Agyemang

Lecturer, Dept. of Fisheries & Watershed Management
